Abhijeet Kulkarni

MERN Stack Developer | Building Scalable and High-Performance
Web Applications
Panvel, Maharashtra, India

Summary

A dedicated and adaptable MEARN stack developer known for a strong problem-solving mindset and a collaborative spirit. Thriving in fast-paced environments, I am committed to delivering high-quality results and continuously learning. Passionate about leveraging new technologies, I aim to create innovative solutions that enhance user experience and foster growth.

Experience

Puneri Pattern Pvt Ltd
Frontend Developer
October 2023 - February 2024 (5 months)
Pune, Maharashtra, India

As a React front-end developer intern, I worked on the development of a real estate platform called Bhavya Property. I was responsible for creating a dynamic and responsive user interface using React, optimizing components for performance, and ensuring seamless integration with the backend. I focused on building reusable components and implemented state management using tools like Redux. This internship provided valuable hands-on experience with React, enhancing my skills in modern front-end development and user interface design.
